For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

PART 2 -- TABLE OF CONTENTS

PERMANENT AUTHORITY EXCEPT FITNESS 5

PERMANENT AUTHORITY FITNESS 11

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

EX PARTE NO. MC-43

LEASE AND INTERCHANGE OF VEHICLES BY MOTOR CARRIERS

****

CONTRANS CORP. AND ITS AFFILIATES, BACON MOTOR EXPRESS, INC. d/b/a
PACEMAKER CONTRACT CARRIER, MC-106863 et al
INCLUDING CANADIAN CARRIERS PETER'S CARTAGE SERVICE, (WINDSOR) LTD.
AND
RELIABLE TRANSPORT (QUEBEC) INC.

Decided: November 24, 1986

The Contrans Corp., (Contrans) a non-carrier and its family of owned motor carriers, Bacon Motor Express, Inc. d/b/a Pacemaker Contract Carriers, MC-106863, Global Van Lines, Inc., MC-41089, Pacemaker Express, Inc., MC-180789, Laidlaw Carriers, Inc., MC-113784, Zephyr Transport, Inc., MC-170981, Lyon Van Lines, Inc., MC-5428, Lincoln Moving & Storage, Inc., MC-339, Peter's Cartage Service (Windsor) Ltd., and Reliable Transport (Quebec) Inc., petition for relief from portions of the general leasing regulations at Sections 1057.11 and 1057.12 of the Lease and Interchange of Vehicles regulations (49 CFR Part 1057) when equipment owned by Windsor and Quebec is exchanged with other members of the Contrans family of carriers to perform service within the United States.

We Find:

Petitioners, except Windsor and Quebec, are Commission regulated carriers of property engaged in for-hire transportation in interstate and foreign commerce within the United States. Windsor and Quebec hold operating authority issued by Provincial Transport Boards but none from this Commission. Carriers Zephyr and Laidlaw are authorized to provide for-hire service between the United States and Canada and within both countries. The other carriers currently hold U.S. authority only.

All petitioners are under common control and ownership. The control of those holding U.S. authority, was approved by Commission orders in MC-F-16387, MC-F-16686, MC-F-17085, and MC-F-17586.

On August 1, 1986, the Commission granted the petitioning affiliates of Contrans, holding I.C.C. authority, waiver of Section 1057.22(a) and the portions of Section 1057.(c)(2) and (4) of the Leasing and Interchange of Vehicles regulations when the exchange of equipment is between themselves. Section 1057.22 governs the exchange of equipment between regulated carriers and private carriers leasing to regulated carriers.

Petitioners Windsor and Quebec are not I.C.C. regulated carriers nor are they engaged in private carriage. For this reason, the leasing of vehicles owned or operated by those carriers must be conducted within the United States under the provisions of Sections 1057.11 and 1057.12. This petition seeks relief from the requirement of the lease provisions required by § 1057.11(b) [issuance of receipts] and §§ 1057.12(b) [duration], (d) [compensation] and (e) through (m) [terms and conditions of agreement], when equipment is leased by Windsor and Quebec to the other members of the Contrans family of carriers.

Although Windsor and Quebec hold no authority within the United States, the utilization of equipment operated by those carriers to perform service under the U.S. authorities held by other members of the group, is desired. The objective is to minimize empty miles and provide a more efficient service to customers.

The petition indicates that master leases, as permitted under the regulations, will be utilized and carried in all vehicles exchanged between the petitioners. Dispatch records and operational logs are maintained within the corporate family and readily available for identification of changes in equipment control and responsibility.

The general leasing requirements at 49 CFR 1057 Subpart B were promulgated to resolve problems which faced owner-operators who leased their equipment to authorized carriers. It was not intended that regulations found at § 1057.11 and § 1057.12 apply to leasing agreements between carriers. Subpart C - Exemptions For The Leasing Regulations, specifically § 1057.22, exempts leasing between regulated and private carriers from the general leasing requirements of Subpart B. This distinction was clearly established in the Commission's decision served February 4, 1983, in Ex Parte No. MC-168, The Hine Line-Petition For Rulemaking.

We further find that granting of the requested relief, since common ownership exists between all petitioners, is consistent with the intent of the regulations, the Commission's past practice and the National Transportation Policy, at 49 U.S.C. 10101(a)(2) which directs the Commission to regulate motor carriers in a manner that will "allow the most productive use of equipment and energy resources" and "improve and maintain a sound, safe and competitive privately owned motor carrier system."

It Is Ordered:

1. The petition of the Contrans Corp. and its family of motor carriers, Bacon Motor Express, Inc. d/b/a Pacemaker Contract Carrier, MC-106863, Global Van Lines, Inc., MC-41089, Pacemaker Express, Inc., MC-180789, Laidlaw Carriers, Inc., MC-113784, Zephyr Transport, Inc., MC-170981, Lyon Van Lines, Inc., MC-5428, Lincoln Moving and Storage, Inc., MC-339 and Canadian carriers Peter's Cartage Service (Windsor) Ltd., and Reliable Transport (Quebec) Inc., for relief from the requirements of § 1057.11(b) and § 1057.12(b) and (d) through (m) of the Lease and Interchange of Vehicles regulations (49 CFR Part 1057) is granted when equipment owned by Peter's Cartage Service (Windsor) Ltd. and Reliable Transport (Quebec), Inc. is operating under lease to any of the other petitioners as long as they remain under common control.

2. During the period of common control, all provisions of Section 1057.22, except (a), (c)(2) and (c)(4) which were previously waived for vehicle exchanges between the petitioners holding Commission authority (Ex Parte MC-43 served August 1, 1986), will be applicable for exchange of equipment between those carriers and all provisions of Sections 1057.11 and 1057.12, except those specifically waived above, will be applicable to the lease of equipment from Peter's Cartage Service (Windsor) Ltd. and Reliable Transport (Quebec), Inc.

3. Contractual relationships between owner-operators and the individual petitioning carriers will be governed by the complete leasing regulations of 49 CFR Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gaillard, William J. Love and Heber P. Hardy.

NOTICE: This decision permits the operations of vehicular equipment under lease between the jointly controlled carriers without issuance of an equipment receipt indicating the date and time of transfer of possession. There must be in the vehicle a signed lease agreement between the carriers. The displayed vehicle identification required is only that of the owner. (The term owner includes a person who, without title, is exercising a right of exclusive use of the equipment.) If an owner-operator is involved, there must be a copy of a valid owner-operator/carrier lease signed by one of the carriers named above.

DESERT EXPRESS, INC., MC-176970
DESERT EXPRESS OF CALIFORNIA, INC., MC-195279

Decided: November 24, 1986

Desert Express, Inc., MC-176970 and Desert Express of California, Inc., MC-195279 petition for waiver of Section 1057.22(a) and a portion of Section 1057.22(c)(2) of the Leasing and Interchange of Vehicles Regulations (49 CFR Part 1057) when equipment is exchanged between themselves.

We Find:

Petitioners are regulated carriers both holding common and contract authority from this Commission. The common carrier certificates authorize the transportation of general commodities, with the exception of A & B explosives and household goods, between all points in the United States, except Alaska and Hawaii.

The operations are under joint ownership and control approved by the Commission in MC-F-17836. Vehicle maintenance is under a unified program jointly administered. Professional personnel selects employees and conducts training for both petitioners. Dispatch records and operational logs are maintained at a single corporate family office. Information is readily available to identify changes in equipment and responsibility.

Petitioners have found in exchanging equipment that the vehicle identification and equipment receipts portions of the leasing regulations are burdensome, restrictive on equipment utilization, and result in non-productive costs. The specific requirements from which petitioners seek relief are also viewed as serving no useful public purpose since joint ownership and control exist.

The petition requests also that petitioners be allowed to jointly identify vehicular equipment under lease between themselves. A grant of waiver to section 1057.22(a) effectively eliminates the need for reidentification of the units when exchanged between the carriers involved. Thus, joint identification would not be necessary. However, if petitioners wish to have permanent dual identification on the exchanged vehicles, the applicable regulations are found at 49 CFR Part 1058. Under § 1058.2 additional identification, not inconsistent with the basic requirements, is not prohibited.

Carriers exchanging vehicles on a regular basis, as between jointly owned and controlled carriers, usually find the use of master leases advantageous. Although the petition does not request waiver of the equipment receipt provision of § 1057.22(c)(4), consistency would dictate that this section be included. Therefore, we have modified the petition to add that section to those for which waiver is requested.

We further find that the granting of the petition for waiver of specific leasing regulations modified to include Section 1057.22(c)(4), is consistent with past Commission practice and in keeping with its obligations under the National Transportation Policy at 49 U.S.C. 10101.

It is Ordered:

1. The petition of Desert Express, Inc., MC-176970 and Desert Express of California, Inc., MC-195279 for waiver of Sections 1057.22(a) and 1057.22(c)(2) and (4), as they relate to equipment receipts, is granted for the exchange of equipment between themselves as long as common control exists.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gaillard, William J. Love, and Heber P. Hardy.

NOTICE: This decision permits the operation of vehicular equipment under lease between the jointly controlled carriers listed, with displayed vehicle identification of only the owner. (The term owner includes a person who, without title, has the right to exclusive use of the equipment.) There must be in the vehicle a copy of a signed agreement between the carriers. However, since joint control exists between the carriers, no receipt indicating possession of the vehicle is required. If an owner-operator is involved, there must be in the vehicle a copy of a valid owner-operator/carrier lease signed by one of the carriers named above.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

EX PARTE NO. MC-142 (Sub-No. 1)

REMOVAL OF RESTRICTIONS FROM AUTHORITIES OF MOTOR CARRIERS OF PROPERTY
[49 CFR Part 1165]

AGENCY: Interstate Commerce Commission.

ACTION: Final rules.

SUMMARY: The Commission has adopted rules (see appendix) governing motor property carrier applications for operating authority and restriction removal procedures (49 CFR Parts 1160 and 1165) in accordance with the decision in American Trucking Assn's., Inc. v. I.C.C., 770 F.2d 535 (5th Cir. 1985) (ATA III).

The revised rules let applicants seek any commodity authorizations that they show (through brief explanation) are not unduly restrictive. The revised rules also provide that applicants seeking to perform bulk service under specified commodities authority and carriers seeking to remove bulk operating restrictions from existing authority must establish, through OP-1 application procedures, their fitness, willingness, and ability to transport the commodities in bulk form and must provide a commensurate demonstration (a) by common carriage applicants, that the service would be responsive to a public need; or (b) by contract carriage applicants, that such service is consistent with the public interest. The proposed supplemental rulemaking instituted to consider a bulk restrictions policy for specified commodities authority [49 FR 27182 (July 2, 1984)] is discontinued elsewhere in this issue.

Rules concerning the appropriate territorial scope of contract carrier permits are revised to allow, at a minimum, 48-State operating territories. Contract carrier applicants seeking to provide service in Alaska or Hawaii are required to introduce evidence demonstrating their fitness, willingness, and ability to operate in those States and establishing that the service is consistent with the public interest.

EFFECTIVE DATE: The rules will be effective on January 5, 1987.

SUPPLEMENTAL INFORMATION:

The Commission's decision contains additional information. To purchase a copy of the decision, write to T.S. ENERGY AND ENVIRONMENTAL CONSIDERATIONS

This action will not affect significantly either the quality of the human environment or the conservation of energy resources.

REGULATORY FLEXIBILITY ANALYSIS

The Commission certifies that the adopted rules will not have a significant economic impact on a substantial number of small entities.

The information required of small carrier applicants seeking either authority to provide bulk service or authority to provide contract service in Alaska or Hawaii should be available from business records or can be developed readily without affecting the costs of doing business. The adopted rules should not result in additional reporting, recordkeeping, or compliance requirements for small entities.

APPENDIX

Title 49 of the Code of Federal Regulations is amended as follows:

PART 1160-HOW TO APPLY FOR OPERATING AUTHORITY

1. The authority citation for Part 1160 continues to read as follows:

Authority: 49 U.S.C. 10101, 10305, 10321, 10921, 10922, 10923, 10924, and 11102; 5 U.S.C. 553 and 559.

2. Section 1160.101 is revised to read as follows:

§1160.101 Commodity description.

(a) General commodities carriers. Authority to transport general commodities will be restricted against the transportation of classes A and B explosives, commodities in bulk, and household goods, unless the applicant specifically demonstrates (1) its fitness, willingness, and ability to perform such specialized service(s) and (2) that the specialized service(s) would, (i) in the case of common carrier authority, be responsive to a public demand or need, or (ii) in the case of contract carrier authority, be consistent with the public interest. Other restrictions on general commodities authority are considered unduly restrictive and will not normally be imposed.

(b) Named commodities or limited classes of commodities.

1. Authority to transport a named commodity or limited class of commodities normally shall not contain any commodity or service restrictions. However, commodity descriptions will be restricted against transportation of commodities in bulk unless the applicant specifically demonstrates (i) its fitness, willingness, and ability to perform such operations, and (ii) that the bulk service would be, (A) in the case of common carrier authority, responsive to a public demand or need, or (B) in the case of contract carrier authority, consistent with the public interest.

(2) An applicant seeking authority to transport named commodities or limited classes of commodities shall frame its request using:

(i) The two-digit Standard Transportation Commodity Code on file with the Commission; or

(ii) One or more of the broad generic groupings contained in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 (1952) and 766 (1953); or

(iii) A broad class description generally accepted by the Commission, such as commodities in bulk, commodities which because of their size and weight require special equipment, oil field commodities as described in Mercer Extension-Oil Field Commodities, 74 M.C.C. 459 (1946), or commodities dealt in by a particular business; or

(iv) Any other commodity description that the applicant shows (through brief explanation) is not unduly restrictive.

3. Section 1160.105 is amended to read as follows:

§1160.105 Contract carriers.

Permits to operate as a contract carrier to serve named shippers or classes of shippers (industry or industries) shall authorize, at a minimum, service "between points in the United States (except Alaska and Hawaii)." A contract carrier will not be authorized to provide service in Alaska or Hawaii unless it demonstrates: (i) its fitness, willingness, and ability to serve the State(s); and (ii) that service in the State(s) is consistent with the public interest.

Part 1165-REMOVAL OF RESTRICTIONS FROM AUTHORITIES OF MOTOR CARRIERS OF PROPERTY, MOTOR CARRIERS OF PASSENGERS AND FREIGHT FORWARDERS

4. The authority citation for Part 1165 continues to read as follows:

Authority: 49 U.S.C. 10321 and 10922 (h)(i); 5 U.S.C. 553.

5. Paragraph (b)(4) of §1165.21 is revised and a new paragraph (d) is added to read as follows:

§1165.21 Commodity description.

x x x x x

(b) x x x

(4) To replace such an authorization with any other commodity description that the applicant shows (through brief explanation) is not unduly restrictive.

Section 1165.21 is amended by adding subsection 1165.21(d):

x x x x x

(d) Bulk service restrictions. A carrier seeking to remove bulk service restrictions from either general or specified commodities authority must make a specific showing (1) of its fitness, willingness, and ability to transport the involved commodities in bulk form, and (2) that the bulk service is (i) responsive to a public demand or need, where common carrier authority is involved, or (ii) consistent with the public interest, where contract carrier authority is involved. Because such specific inquiries exceed the scope of restriction removal procedures, requests to eliminate bulk restrictions should be made by filing an operating rights application for bulk authority under the rules at 49 CFR Part 1160, using Form OP-1.

6. Section 1165.26 is amended to read as follows:

§1165.26 Contract carriers.

(a) Where a permit of a contract carrier limits the carrier's territorial scope of service for a named shipper, shippers, or class(es) of shippers to less than the 48 contiguous United States, such authority is considered unduly restrictive. Use of these procedures normally is appropriate for applications seeking to broaden the territorial scope of such permits. Such applications can request authority to serve the named shipper, shippers or class(es) of shippers, "between points in the United States (except Alaska and Hawaii)."

(b) Contract carriers seeking to broaden the territorial scope of their operations to include Alaska or Hawaii will be required to demonstrate: (1) their fitness, willingness, and ability to serve the State(s) and (2) that service in the State(s) is consistent with the public interest. Because such specific inquiries exceed the scope of restriction removal procedures, requests to expand contract carrier authority to permit service to Alaska and/or Hawaii should be made by filing an operating rights application under the rules at 49 CFR Part 1160, using Form OP-1.

(c) The commodity descriptions in contract carrier permits can be broadened, and unreasonable restrictions removed, to the extent specified in Subpart C of this Part.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

Motor Carrier Applications to Consolidate, Merge or Acquire Control under 49 U.S.C. 11343-11344

The following applications seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by 49 CFR 1182.1.

Persons wishing to oppose an application must follow the rules under 49 CFR 1182.2. If the protest includes a request for oral hearing, the request shall meet the requirements of 49 CFR 1182.3 and shall include the required certification. Failure seasonable to oppose will be construed as a waiver of opposition and participation in the proceeding.

In the absence of legally sufficient protests as to the finance application or to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

Findings:

The findings for these applications are set forth at 49 CFR 1182.6.

Volume OP3-610
Decided: November 28, 1986
By the Commission, Motor Carrier Board, Members Horne, Gagnon, and Guyton, Member Guyton not participating

MC-F-17951, filed November 7, 1986. THE GREYHOUND CORPORATION (Greyhound) (111 W. Clarendon Ave., Phoenix, AZ 85077) -- CONTINUANCE IN CONTROL -- GREYHOUND TRAVEL SERVICES, INC. (GTS) (4900 University Ave., #290E, West Des Moines, IA 50215). Representative: Robert D. Rierson, 1742 Greyhound Tower, Phoenix, AZ 85077. Non-carrier Greyhound and, in turn, its wholly-owned non-carrier subsidiary, Greyhound Lines, Inc. (Lines) seek authority for their continuance in control of GTS upon the latter's institution of operations as a motor carrier of passengers, in charter and special operations, between points in the United States (except Hawaii) pursuant to the initial authority it seeks in No. MC-195605.

Greyhound is a publicly held corporation which has 98 percent control of Texas, New Mexico, & Oklahoma Coaches, Inc. (MC-61120) (approved in No. MC-F-8343), and 100 percent control of Vermont Transit Company (MC-45626) (approved in No. MC-F-12432). Greyhound's control of non-carrier Lines was approved in No. MC-F-8531. Lines, in turn, has 100 percent control of Central Greyhound Lines Co. (MC-194798), Southern Greyhound Lines Co. (MC-194551), Eastern Greyhound Lines Co. (MC-195057), and Western Greyhound Lines Co. (MC-194642), which was approved in No. MC-FC-82959. Lines also has 100 percent control of GTS, and accordingly, both Lines and its parent, Greyhound, will continue in control of GTS upon its institution of operations. Since both Greyhound and Lines are non-carriers in control of two or more carriers, their continuance in control of GTS is subject to our jurisdiction.

The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

AGENCY: Interstate Commerce Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Commission proposes to amend 49 CFR Part 1084 to eliminate the cargo liability security requirements for non-household goods freight forwarders and to make conforming changes in the rules governing freight forwarders' surety bonds and policies of insurance. This exercise of the Commission's discretion under 49 U.S.C. 10927(c)(2) is consistent with the Surface Freight Forwarder Deregulation Act of 1986, Pub. L. No. 99-521, enacted October 22, 1986, that substantially deregulates the non-household goods segment of the freight forwarding industry.

Although the Commission has broad discretion concerning cargo security requirements for all forwarders, we propose to eliminate the cargo security requirement for non-household goods freight forwarders based on a public interest determination. We have concluded preliminarily that the proposed rule revisions will eliminate unnecessary regulatory burdens on non-household goods freight forwarders. Furthermore, adoption of the proposed rules will eliminate the administrative difficulties the Commission would face in imposing and enforcing security requirements on a segment of the transportation industry over which we no longer have licensing jurisdiction or explicit authority to impose reporting requirements. We invite comments of interested parties on these matters.

DATE: Comments are due on or before December 29, 1986.

ADDRESS: The original and, if possible, 15 copies of comments referring to Ex Parte No. MC-181, should be addressed to:

ENVIRONMENTAL AND ENERGY CONSIDERATIONS

We preliminarily conclude that the proposed action will not significantly affect either the quality of the human environment or the conservation of energy resources.

INITIAL REGULATORY FLEXIBILITY ANALYSIS

The Commission is proposing to exercise its discretion under 49 U.S.C. 10927(c)(2) and eliminate cargo liability security regulation in order to minimize the regulatory burdens on non-household goods freight forwarders.

We preliminarily conclude that the proposed elimination of prescribed cargo liability security for non-household goods forwarders will have a beneficial, although modest, economic impact on a substantial number of small entities by reducing regulatory burdens. At the same time, we are convinced that small entities that rely on forwarder service have sufficient commercial protections available to ensure that acceptable cargo liability security levels will be observed by non-household goods forwarders, absent Commission regulation of the subject.

The proposed rule revisions will not require, and to some extent will eliminate, the filing of reports or recordkeeping by small entities. The proposal will not duplicate, overlap, or conflict with any existing Federal rules.

Ex Parte No. MC-184

REGULATION OF HOUSEHOLD GOODS FREIGHT FORWARDERS UNDER THE SURFACE FREIGHT FORWARDER DEREGULATION ACT OF 1986

AGENCY: Interstate Commerce Commission.

ACTION: Final rules.

SUMMARY: Final rules are adopted making numerous ministerial revisions to the regulations in the appendix. These changes are required by the Surface Freight Forwarder Deregulation Act of 1986, Pub. L. No. 99-521, Stat., enacted October 22, 1986. This legislation substantially deregulates the non-household goods segment of the surface freight forwarding industry. The rule revisions contained in the appendix are technical in nature and remove non-household goods freight forwarders from the scope of the rules, as required by the legislation. Another rulemaking noticed concurrently with this one, Ex Parte No. MC-181, Elimination of Cargo Liability Security Requirements for Freight Forwarders of Non-Household Goods, proposes to exercise the Commission's only discretionary authority conferred by the legislation to remove non-household goods freight forwarders from the scope of the rules on cargo liability security filing requirements.

EFFECTIVE DATE: December 21, 1986

SUPPLEMENTARY INFORMATION:

Additional information is contained in the Commission's decision. To purchase a copy of the full decision, write to T.S. InfoSystems, Inc., Room 2229, Interstate Commerce Commission Building, Washington, DC 20423, or call 289-4357 (DC Metropolitan area) or toll-free (800) 424-5403.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

REGULATORY FLEXIBILITY ANALYSIS

We conclude that the rules we are adopting will have a significant, beneficial economic impact on a substantial number of small entities. Compliance by non-household goods freight forwarders with the numerous regulatory requirements in effect prior to deregulation (ranging from applications filing to tariff publishing to recordkeeping) has added to their cost of doing business. This, in turn, has added to the cost of services that they provide. The removal of non-household goods freight forwarders from the scope of the rules will result in substantial cost savings to them since they no longer will have to comply with these regulatory requirements. In addition, the persons who use their services should experience a beneficial economic impact as these forwarders pass on cost savings in the form of lower rates.

AUTHORITY: Public Law No. 99-521, 49 U.S.C. 10321, and 5 U.S.C. 553.

Decided: November 24, 1986

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley. Commissioner Lamboley concurred in the result.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

FROM 49 U.S.C. 11343

AGENCY: Interstate Commerce Commission

ACTION: Notice of Exemption

SUMMARY: Pursuant to Ex Parte No. 55 (Sub-No. 57), Exemption of Certain Transactions from 49 U.S.C. 11343 (not printed), decided November 21, 1984; 49 F.R. 48314 (December 12, 1984), the Commission has exempted transactions among motor carriers of property and between them and noncarriers otherwise subject to regulation under 49 U.S.C. 11343(a)(1)-(5). The following Notices of Exemption are being published in order to permit employees to oppose a transaction on the grounds that they may be adversely impacted thereby, and to permit any interested person to oppose a transaction on the grounds that it may be anticompetitive. If no opposing comments are received in the period specified below, the Notices of Exemption published below shall be the final action of the Commission, and parties may consummate the transaction described in the Notice 60 days after the date of publication. If opposing comments are received, a decision addressing the comments and either denying the exemption or granting it, with or without conditions, will be served. Parties must await issuance of that decision before consummating an opposed transaction.

ADDRESSES: Send comments to:

(1) Office of the Secretary
Case Control Branch
Interstate Commerce Commission
Washington, D.C. 20423

and

(2) Petitioners representative(s), as shown below.

DATES: Comments are due 30 days after publication of the Notice of Exemption.

FOR FURTHER INFORMATION CONTACT:

Warren C. Wood
(202) 275-7977

SUPPLEMENTAL INFORMATION:

Further information concerning the transaction proposed for exemption is contained in the Notice of Exemption. A copy of the Notice of Exemption may be obtained free of charge by contacting petitioner's representative. In the alternative, the Notice of Exemption may be inspected at the offices of the Interstate Commerce Commission during usual business hours.

For transactions involving the merger of two or more carriers or the purchase of motor carrier operating authority, petitioners may obtain revised certificates by notifying the Commission that the transaction has been consummated and by complying with the following administrative requirements set forth in the Code of Federal Regulations: Insurance (49 CFR 1043) (liability: ICC Form BMC-91 or BMC-91X and cargo: ICC Form BMC-34), designation of process agents (49 CFR 1044) (ICC Form BOC3), and tariffs (49 CFR 1312).

JOSEPH ZEMBRODT, ET AL.--CONTINUANCE IN CONTROL EXEMPTION--A.C. LEASING COMPANY AND 3-Z LEASING CO., INC.

Petitioners' representative:
E. H. van Deusen
2515 West Granville Road
Worthington, OH 43085

Comments should refer to No. MC-F-17854.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the continuance in control by Joseph Zembrodt, Jerry Zembrodt, and John Zembrodt, non-carrier individuals, of A.C. Leasing Company (A.C.) (MC-156691) and 3-Z Leasing Co., Inc. (3-Z), a non-carrier, upon a grant of authority to 3-Z in its initial application pending in Docket No. MC-195869. A.C. holds certificated authority to transport general commodities (except classes A and B explosives and household goods), between points in the United States (except Alaska and Hawaii). 3-Z seeks authority: (1) as a common carrier of general commodities (except classes A and B explosives and household goods), between points in the United States (except Alaska and Hawaii); (2) as a contract carrier of general commodities (except classes A and B explosives and household goods), between points in the United States (except Alaska and Hawaii), under continuing contract(s) with commercial shippers or receivers of such commodities; and (3) as a broker of general commodities (except household goods), between points in the United States.

Joseph Zembrodt is Vice President of A.C. and President, a director, and a one-third shareholder of 3-Z. Jerry Zembrodt is Treasurer of A.C. and Vice President, a director, and a one-third shareholder of 3-Z. John Zembrodt is Secretary of A.C. and Secretary-Treasurer, a director, and a one-third shareholder of 3-Z. Thus, upon issuance of authority to 3-Z, Joseph Zembrodt, Jerry Zembrodt, and John Zembrodt will control two regulated carriers -- 3-Z and A.C.

NOTE: This transaction was mistakenly published as a transfer on page 27 of the ICC Register issue of October 27, 1986. This Notice serves as a correction.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

If opposing comments are received, a decision addressing the comments and either denying the exemption or granting it, with or without conditions, will be served. Parties must await issuance of that decision before consummating an opposed transaction.

(1) Office of the Secretary
Case Control Branch
Interstate Commerce Commission

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

REGULATIONS GOVERNING FEES FOR SERVICES PERFORMED IN CONNECTION WITH LICENSING AND RELATED SERVICES _/

AGENCY: Interstate Commerce Commission

ACTION: Notice of Proposed Rulemaking

SUMMARY: The Commission is reopening its 1984 user fee decision [published as corrected at 49 F.R. 27154 (7-2-84)] and its 1985 user fee decision [published as corrected at 50 F.R. 4722 (11-15-85)] to seek comments on proposed adjustment to the fee schedule changes required by the decision in Central and Southern Motor Freight Tariff Ass'n Inc. v. United States 777 F.2d 722 (D.C. Cir. 1985). As a result of this reopening the filing fee for Fee Item (74), the filing of tariffs, rate schedules and contracts, including supplements, would be increased to $6.00 per series transmitted. Also two fees in our 1984 schedule should have been established at lower levels. Our calculations for the 1986 update are also discussed.

DATE: Comments must be submitted by January 20, 1987.

ADDRESS: An Original and 15 copies should be sent to:

SUPPLEMENTARY INFORMATION:

As a result of the court's decision in Central and Southern Motor Freight Tariff Ass'n Inc. v. United States, 777 F.2d 722 (D.C. Cir. 1985), the Commission has reviewed its calculation of the operations overhead cost factor used to develop fees for performing service for the public and its calculations of the specific costs for the tariff filing fee.

Using actual budget data, the Commission proposes to change its calculation for operations overhead costs from 10.82 percent to 9.34 percent for our 1984 fee schedule. Since the Commission's fees are set at levels lower than its fully distributed costs (due to a rounding-down procedure), the recalculation of operations overhead would have little effect on the actual fees. Only two fee items on the 1984 schedule would change: Fee Item (42), a notice petition to discontinue passenger train service, and Fee Item (44), an application for use of terminal facilities or other applications under 49 U.S.C. 11103. Fee Item (42) should have been established at $6,200 rather than $6,300 and Fee Item (44) should have been established at $5,200 rather than $5,300. Anyone who filed either type of application between July 2, 1984, and November 4, 1985 -- when the 1984 schedule was in effect -- would be entitled to a refund of $100 upon adoption of the changes. No changes would be required in our 1985 Schedule as a result of the modification of the operations overhead cost factor.

Upon re-examination, the direct labor cost for processing tariff filings has been calculated at $3.35. The fully allocated cost level for 1984 should have been $5.98. Thus, our calculation of $4.86 in our 1984 decision (which produced a fee of $4.00) was lower than the actual costs. The tariff filing fee increased to $5.00 in 1985, when fees were adjusted to reflect the 1985 costs of services. Based upon the change in direct labor noted above and taking into consideration update factors for 1985, we now propose to increase the fee to $6.00, because our fully allocated costs for tariff filing is now $6.17.

The Commission is required to recalculate its costs for providing services to the public annually and to update its fees accordingly, 49 CFR 1002.3. This year there has been no increase in direct labor costs because there was no government general schedule wage increase. Our general and administrative expenses have decreased slightly this year. As a result our fully distributed costs for providing service decreased slightly this year. However, the decrease is not substantial enough to cause any reductions in fees. Our calculations of 1986 fees appear as Appendix C in the Commission's full decision. Adoption of the 1986 fee update will be deferred until a final decision is issued with respect to the reopening of the 1984 and 1985 Fee Decisions.

Additional information about the calculations that led to these proposed revisions in our fee schedule is contained in the Commission's full decision. A copy of the full decision is available upon request from the Office of the Secretary, Room 2215, Interstate Commerce Commission Building, Washington, DC 20423 or call 202 275-7428.

This decision should not have a significant impact upon the quality of the human environment or the consumption of energy nor should it have a significant effect on a substantial number of small entities.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

SUPPLEMENTAL INFORMATION:

LTC Holdings, Inc., in a related proceeding -- docketed as No. MC-F-18024 -- is seeking an exemption from the requirement of prior Commission approval for its acquisition of control of several motor carriers now controlled by Leaseway Transportation Corp. The proceeding in No. MC-F-18024 concerns the motor carrier aspects of the proposed transaction.

This proceeding concerns the property broker aspects of the proposed transaction. Leaseway Transportation Corp. now controls six property brokers: A to Z Cartage, Inc. (No. MC-156031), Leaseway International Corp. (No. MC-165979), Quick Connections Broker Systems, Inc. (No. MC-183088), Gold Star Enterprises, Inc. (No. MC-182125), Black Horse Brokers, Inc. (No. MC-177187), and Arco Auto Carriers, Inc. (No. MC-52657) (Sub-No. 765). Each such property broker holds authority to operate as a broker of general commodities (except household goods), between points in the United States.

Our regulation at 49 CFR 1181.32(b) provides that "If there is a change in the control of a corporation...which holds a broker license, an application must be filed with the Commission describing the change and offering proof that the change is not contrary to the public interest." The record suggests that the proposed change in the control of the six named property brokers will be in the public interest, since it will allow these brokers to continue to perform service to the public as part of a well established and highly experienced family of transportation enterprises.1/

1 Leaseway Transportation Corp. now controls the following motor and water carriers of property: AMAC Trucking, Inc. (MC-140619); Anchor Motor Freight, Inc. (MC-808); Automotive Transportation Systems, Inc. (MC-183196); Better Home Deliveries, Inc. (MC-150511); Charlton Transport (Quebec) Limited (MC-141250); Contract Trucking Corporation (MC-156146); Cryogenic Carriers, Inc. (MC-157690); Custom Deliveries, Inc. (MC-142693); Dedicated Freight Systems, Inc. (MC-139583); Fleet Transport Company, Inc. (MC-103051 and MC-114106); Geo. McNeil Teaming Company (MC-153315); Leaseway Customized Transport, Inc. (MC-143308); Gypsum Haulage, Inc. (MC-112113); Inter-City Trucking Service, Inc. (MC-28658); LDF, Inc. (MC-147101); Leaseway Bulk Services, Inc. (MC-96630); Leaseway Deliveries, Inc. (MC-164713); Leaseway Intermodal, Inc. (MC-144901); Leaseway International Corp. (MC-165979 and W-1402); Leaseway Motorcar Transport Company (MC-10345); Leaseway TRM, Inc. (MC-182557); Leaseway Trucking, Inc. (MC-153610); Max Binswanger Trucking (MC-116314); Midwestern Distribution, Inc. (MC-128273); Mitchell Transport, Inc. (MC-124212); Pep Lines Trucking Co. (MC-120184 and MC-135280); Refiners Transport & Terminal Corporation (MC-50069); Signal Delivery Service, Inc. (MC-108393); Stam-Win, Inc. (MC-147294); Sugar Transport, Inc. (MC-115924); United Home Delivery, Inc. (MC-153685); Vernon Equipment, Inc. (MC-150412); Gross & Hecht Trucking, Inc. (MC-59806); Mountainside Transport, Inc. (MC-13267); Gold Star, Inc. (MC-148560); Niedert Freight, Inc. (MC-34156); Fleet Carriers, Inc. (MC-156645); Black Horse Carriers, Inc. (MC-177187); Nu-Car Carriers, Inc. (MC-22182); and Arco Auto Carriers, Inc. (MC-52657).

Public comment is invited on the question, wheter the change in control of the six named brokers is or is not contrary to the public interest. After a 30-day comment period, this proceeding will be referred to the Motor Carrier Board for the issuance of a decision, in accordance with 49 CFR 1181.32(b).

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

Carver, trustee, under a voting trust agreement which will be entered into between Mr. Carver and KTC. Upon this exemption approval becoming effective, the stock will be transferred to KTC.

KTC holds nationwide bulk commodity authority except in Alaska and Hawaii as well as numerous grants of specified commodity authority between various points in the United States. TTC holds authority to transport bulk commodities between points in the United States except Alaska and Hawaii. TTC also holds Georgia intrastate authority to transport specified petroleum products and liquid fertilizer between all points in Georgia.
